1-917-776-7363

Welcome to my digital catalog of ancient coins I have available. The plan is for this catalog to come out 1-2 times a month, so please understand if there is a difference in the prices (as some items may have been on sale), or if some of the items having been sold by the time this is published. You are welcome to submit offers on all the coins. I am always happy to have a win win with everyone I deal with.

As my collection of ancient coins has grown, there has come a need for an easy-to-use way to peruse my entire selection of ancient coins and find exactly what you're looking for, or amazing treasures that may be buried deep within the many pages in my eBay store.

This catalog is organized alphabetically, so a lot of similar types of coins should be in order.

How to Use this Catalog

You can print this catalog out by either using the buttons CTRL and P to pull up the print dialog box. Alternatively, there should be a printer icon, located somewhere in your program. In case you need a program to be able to read the digital catalog on your computer, you can get the Adobe Acrobat Reader for free at: <http://get.adobe.com/reader/>

With the printed list, you will be able to mark the ones you would like and perhaps the offers you would like to submit.

How to Look Up Coins from the Printed Catalog

The digital catalog is great as you can click on the links and see the coin from the catalog.

If you want to find the specific coin inside this document you can use the buttons CTRL and F for a search dialog box and type in as an example my item number or other keyword, to jump to that part of the page. An alternative is for you to take the item number and type it into the search box at www.eBay.com. Or you can type it into the search box in my eBay store, which is easy to access via website domain: www.ZeusCoins.com

Almost every coin has a title that ends in an item number, example: " Ancient Greek Roman Coin i12345", this alphanumeric number "i12345" is great as you can use that to make offers to me directly, if you so wish, or find the item on eBay and make the offers there. You can write down this number as you wish, but if you are doing a search, makes sure to include the "i" in the beginning, as in i12345, which helps the search engine narrow it down.

How to Make Offers or Buy it Now

You can make offers on eBay via the "make offer" feature. Or if you like the price, you can do the buy it now. eBay is an amazing interface which is quick and easy. You are covered under a guarantee that you get your item, as described or your money back. eBay is great also because it creates a safe trading environment for both buyers and sellers.

However, some people want to deal with me directly, which is fine too, you can make a list of item numbers and how much you would like to offer and send them to trustedcoins@live.com Alternatively if you choose to pay by check, money-order, wire transfer or other alternative methods, even payment in gold and silver (as agreed upon) can also be arranged. I would be happy to take your call and consult with you on the phone: 1-917-776-7363. My name is Ilya and it is pronounced E-lee-ya.

Additional Recourses

You can receive period updates from me via email which include many articles on the ancient coin field: www.List.TrustedCoins.com

Read many how-to articles, watch videos and tutorials in my book:

www.AncientGreekRomanCoinsforSale.com

Find more resources at my site: www.TrustedCoins.com or access my eBay store directly via:
